MatchMaker Software

2022

Best in Breed
For all types of Recruitment Business

www.MatchMakerSoftware.com

Technology with Confidence

Trusted suppliers to the recruitment industry for 30 years.

About Us

MatchMaker was launched in 1987 and quickly gained a reputation for great software and first-class support.

Early successes taught us that recruitment businesses vary in size, service and the markets they supply. So we developed dedicated versions for Perm, Temp, Contract and Executive. This strategy has brought us clients of all types and sizes, from single office to hundreds of users.

Real-time technology is an essential industry standard - without it your candidates, clients and consultants could all be looking at different copies of the data. Our recruitment software, website integration and mobile apps provide a real-time solution, with immediate updating, all in one database.

Our clients take advantage of these benefits to win business, streamline processes and accelerate their growth.

During 30 years, we have probably worked with every type of recruitment business, including ones like yours.

Along the way, we have thrived in good times, survived three recessions and built a financially sound business with great products, dedicated staff and a range of services to support your business.

It all starts with a conversation, so call us now to learn more.

3 questions - 1 answer

MatchMaker

The latest generation of our flagship product - track record and innovation all in one.

MatchMaker is a world-class solution, fully scalable from single office to hundreds of users and with specialist modules for:

- Permanent Recruitment.
- Temporary Staff.
- Executive Search and Selection.
- Contract and Interim

Powerful, flexible, proven and complete - everything you need from a supplier you can trust.

Epsilon

Much more than just forms on your website, Epsilon is a fully integrated application, connected to the same database as your Consultants. No delays, no second database, no update errors - this is real-time.

Bringing candidates and clients closer to you, Epsilon can help to improve productivity, reduce administration and extend your reach.

Auriga

The very latest in mobile technology for candidates on the move.
In standard livery or themed to match your branding, Auriga puts your agency in their pocket.

Free for the candidate to download, it keeps you in touch, wherever they are.

The Best of All worlds

MatchMaker, Epsilon and Auriga are all leaders in their own field. Introduce them together or use MatchMaker on its own, then add Epsilon and/or Auriga later, at a time to suit you.

Our nearest client is in walking distance and our furthest in Sydney, Australia, so wherever you are and whatever your need, don't hesitate to call us.

Whether you are in permanent, temporary, contract or executive recruitment -
Whether you need recruitment software, website integration or a mobile app -
Whatever your markets and whatever your size -

MatchMaker can offer it all.

MATCHMAKER RECRUITMENT SOFTWARE

PERMANENT

A complete end-to-end solution, from registration to invoicing. Streamline your entire process and let consultants concentrate on making placements.

TEMPORARY

Everything you need for a fast-moving temp business.
Power to handle the volume, speed to get the job done.

CONTRACT

Manage the present, plan for the future and report on the past.
Any type of contractor, any length of contract.

EXECUTIVE

Assignment based recruitment for search and selection.
One of the few which is truly designed for your business.

MIX AND MATCH

Struggling to find software which does everything you do?
With specialist modules for the above services, you can have what you want, in the quantities you need.

INTEGRATED

Epsilon integrates your website for candidates and clients.
Auriga adds mobile technology for candidates on the move.
Software, website and mobiles, in one real-time database.

CONFIGURABLE

Menu-driven tools allow you to tweak MatchMaker to suit your business.
Our industry experts are on hand to help when needed.

CLASS-LEADING M.I.

Custom dashboards, KPI's and a wide range of reports provide outstanding Management Information. Tiered reporting informs every desk at every level.

EPSILON
WEB INTEGRATION

WAKE UP YOUR WEBSITE

Why replace your website when Epsilon can make it interactive?
Epsilon allows candidates and clients to work with you wherever they are, 24 hours a day. Candidate, Client & Job Portals with instant updating.

ONLINE REGISTRATION

More candidates for less effort.
Duplicate checks, GDPR, CV and document upload, direct to your database and automatically acknowledged.

ONE-CLICK JOB POSTING

From MatchMaker to your website at the click of a button. Adverts, job alerts, job search and applicant tracking for candidates & clients.

ONLINE TIMESHEETS

Massive time-savings and increased accuracy can transform timesheet processing. Unlimited volumes and zero cost of capture.

AURIGA
MOBILE APP

YOUR AGENCY IN THEIR POCKET

Mobile phones are a candidate's device of choice. Make sure their agency of choice is yours, by putting your service in their pocket.

PERM FEATURES

In-app registration, job alerts, job search, application tracking and profile updates, to keep the candidate engaged.

TEMP FEATURES

Everything for temps on the move. Availability, job-search, booking confirmations, geolocation, validated check-ins and timesheet entry, all in the palm of their hand.

FREE MESSAGING

How much do you spend on text messages? Save money with Auriga's in-App messaging. It is completely free of charge.

The MatchMaker Ecosystem

Click on buttons or headlines for more information on that subject.

INSTALLATION

Software installation will be undertaken by a trained MatchMaker technician and passed to you, fully tested and ready for use. MatchMaker can be installed in the cloud or on your premises, the choice is yours.

DATA MIGRATION

MatchMaker often replaces other software, so data transfer is common. If you can get your data into our import spreadsheets, we will upload it free. If not, we will be happy to quote, subject to the capabilities of your old database.

TRAINING

Our experienced trainers provide comprehensive training, to ensure your new software is working for you from day one. We also offer train-the-trainer courses for larger organisations with their own training staff and facilities.

PROJECT MANAGEMENT

A MatchMaker Project Manager will be appointed to liaise with you at all stages of the project and to oversee timely and efficient implementation. It starts with a pre-installation meeting and finishes with the handover of a live system.
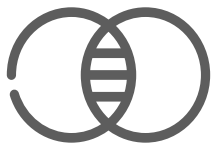

CUSTOMISATION

Many parts of MatchMaker and Epsilon can be configured, using easy menu-driven utilities. This can often eliminate the expense of bespoke programming, required to achieve such a close fit with less configurable products.

HELP DESK

Software support is provided with all MatchMaker and Epsilon products. We seek to offer a fast, friendly and expert service, based upon a combination of technical expertise and detailed knowledge of the recruitment industry.

INTEGRATION

MatchMaker works with class-leading applications, including Zoom, Linkedin, Sage, Microsoft Office, Daxtra, SMS text, Broadbean, leading pay & bill and T&A systems. If you need integration to something else, please ask.

ONLINE RESOURCES

MatchMaker Hub is an online resource centre, which we develop free as a service to the UK recruitment industry. Any recruiter can register and will find a range of resources useful in his career, MatchMaker users even more so.

BESPOKE PROGRAMMING

If you have more complex or unusual requirements, we also offer a bespoke programming service. Most clients don't find it necessary but it's nice to know it's there if you need something special.

OUR SERVICES

Client referrals continue to play an important part in our success. We like to think that's because of our dedication to first class services, from a team with hundreds of projects between them.

Make the call.

MatchMaker has been designed for your business from the ground up, to support your growth, streamline processes and keep you in control.

Choose and combine modules from pages 4 and 5, then call our team for more information or to arrange a free demonstration.
